Because of the steps that need to be completed for payments to be made, payments to local governments in states may take several months. Among other things, payments cannot begin to be issued to a state or its local governments until a state court has entered a consent judgment for that Settlement. Additional steps include, but are not limited to, the Directing Administrator receiving confirmation from a state on agreed-upon allocation amounts or the issuance of a notice providing the state and its subdivisions a 21-day period to dispute the calculation. Payments will be made on a rolling basis as states and subdivisions become ready for payment.

Because of the steps that need to be completed for payments to be made, payments to local governments in states may take several months. Among other things, payments cannot begin to be issued to a state or its local governments until a state court has entered a consent judgment for that Settlement. Additional steps include, but are not limited to, the Directing Administrator receiving confirmation from a state on agreed-upon allocation amounts or the issuance of a notice providing the state and its subdivisions a 21-day period to dispute the calculation. Payments will be made on a rolling basis as states and subdivisions become ready for payment.
