Because of the steps that need to be completed for payments to be made, payments to local governments in states may take several months. Among other things, payments cannot begin to be issued to a state or its local governments until a state court has entered a consent judgment for that Settlement. Additional steps include, but are not limited to, the Directing Administrator receiving confirmation from a state on agreed-upon allocation amounts or the issuance of a notice providing the state and its subdivisions a 21-day period to dispute the calculation. Payments will be made on a rolling basis as states and subdivisions become ready for payment.

Because of the steps that need to be completed for payments to be made, payments to local governments in states may take several months. Among other things, payments cannot begin to be issued to a state or its local governments until a state court has entered a consent judgment for that Settlement. Additional steps include, but are not limited to, the Directing Administrator receiving confirmation from a state on agreed-upon allocation amounts or the issuance of a notice providing the state and its subdivisions a 21-day period to dispute the calculation. Payments will be made on a rolling basis as states and subdivisions become ready for payment.

### Section 2: Payments to Beneficiaries by Date

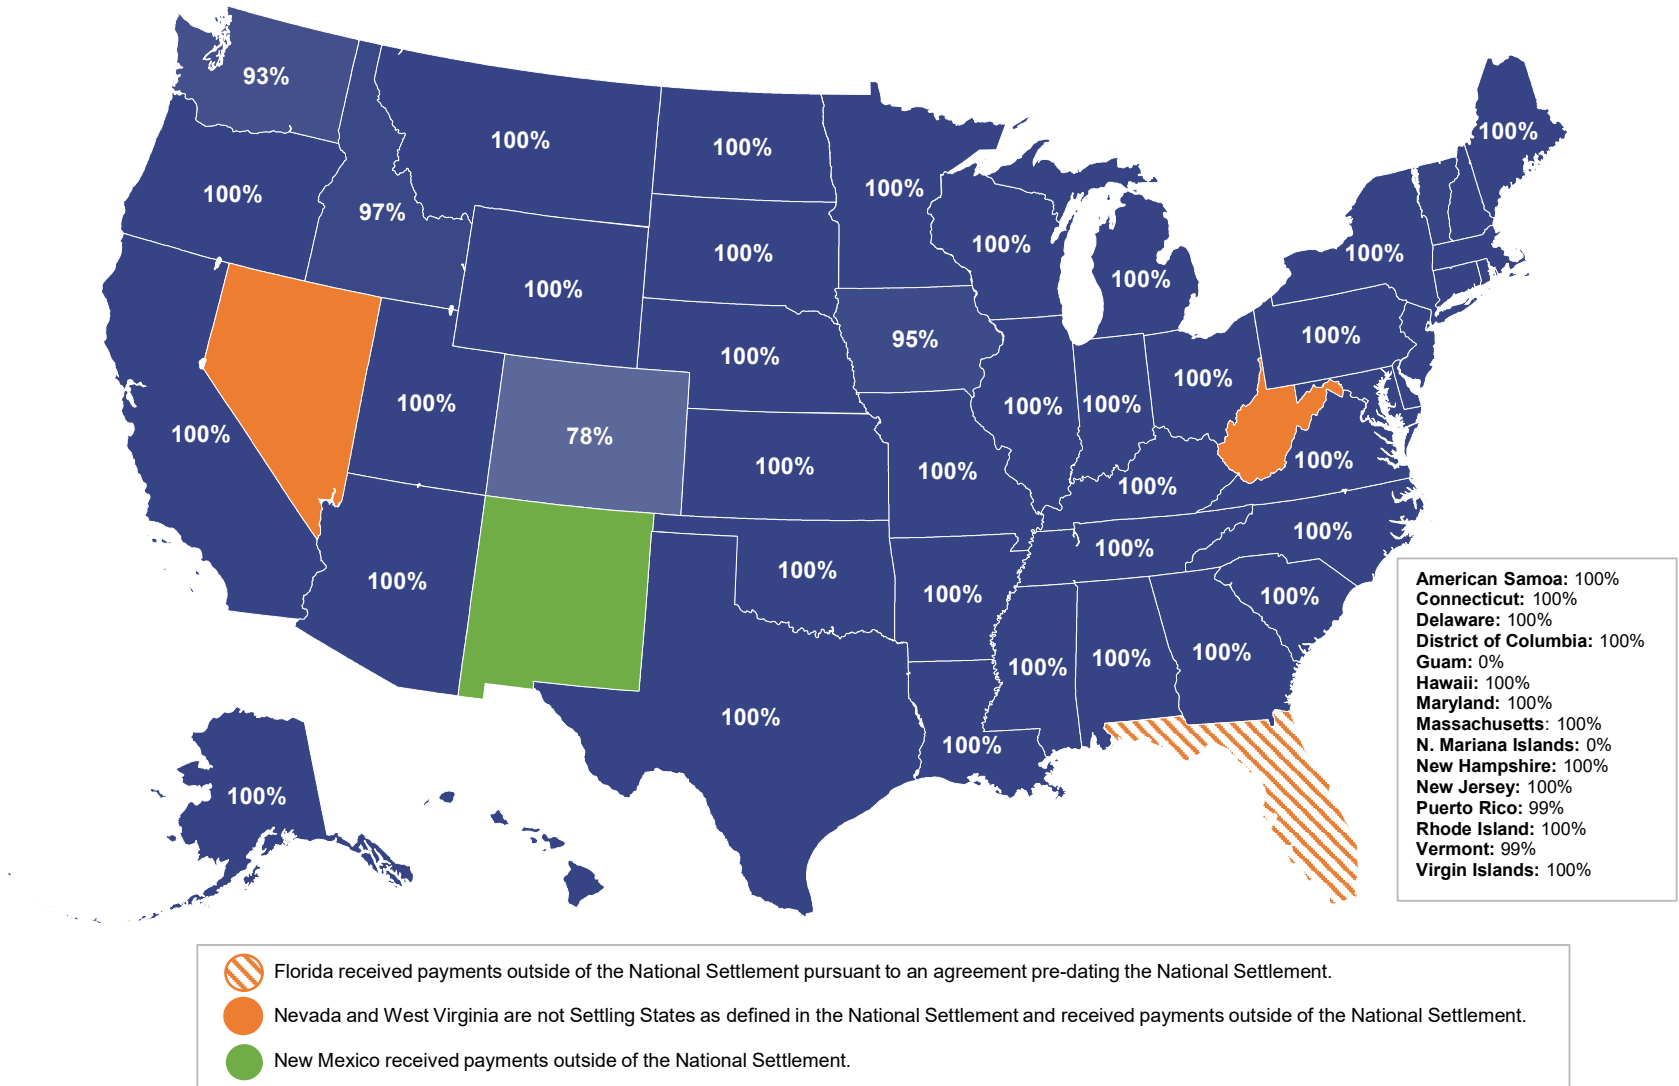

Under the terms of the Walgreens Settlement Agreement, Walgreens shall fund the Annual Fees Payments and Annual Remediation Payments in December and March of the corresponding Payment Years for which they are due, e.g., Payment Year 3 funded in December of 2024 and March of 2025, with payments to be issued starting the following months, respectively. Differentials in the year-to-year payments above may reflect large variances during the period between these funding dates.
